

A Free Choice Supplement for all Classes of Equines

MenthoLic® provides the cool refreshing and soothing, properties of menthol with the flavor enhancing qualities of eucalyptus and aniseed. In addition, **MenthoLic®** is formulated with ground flaxseed and linseed oil, making it a valuable source of omega-3 fatty acids. **MenthoLic®** is a weatherproof, self-fed nutritional supplement that can be fed in stables or paddocks, satisfying the nutritional demands of your horse while helping to alleviate boredom and stress. When you can't always be there for them, there's **MenthoLic®**.

- ✓ **Economical:** A low feeding rate of 1-3 pounds per horse daily means lower feeding costs (on a per head per day basis).
- ✓ **Mineral Fortification:** This supplement is fortified with minerals needed for optimal bone development, health, and top levels of performance.
- ✓ **Weather Resistant:** This supplement maintains integrity and controls consumption even in hot, humid weather or precipitation.
- ✓ **Minimal Labor:** This supplement is easy to feed. Simply place the blocks in areas of easy access to the horses.
- ✓ **Available in 40-lb Non-Returnable Plastic Tubs.** These containers are safe for your equine companion and provide excellent feeding flexibility.

MenthoLic® Supplement

FEEDING DIRECTIONS

Introduce **MenthoLic®** gradually to monitor horse consumption. Provide free-choice as a supplement to horses of all sizes at the rate of one tub for each 1 to 3 head. When group feeding, place tubs in pen or pasture to minimize competition and assure easy accessibility. Mature horses normally consume approximately 1 to 3 pounds per head daily. Consumption may vary depending on climate, forage quality, forage availability, accessibility to other feeds, size, condition and/or age of horses. In situations where increased intake is desired, reduce access to other sources of supplemental energy such as grain or other feed supplements.

Provide access to fresh water and free-choice salt at all times.
